FALL
2018

Welcome Fall!

WELCOME FALL!

As we celebrate our 41st Anniversary this year we are continuing to grow in both our Residential and Commercial services and look forward to serving you as we enter the Fall Season.

With the change of seasons there is also the possibility of extreme weather and that often results in unexpected plumbing, heating and cooling issues that you may not have budgeted in advance for. A new heating unit, a generator or an underground sewer repair can cost a little more than you anticipated spending. To make it a little easier for our customers, we offer 60 months, no interest financing for many of our jobs. Please visit our website at wmhendersoninc.com or call our office at 610-548-5321 for details.

UP TO **60** MONTHS
ZERO INTEREST FINANCING!

A graphic with a red ribbon at the top containing the text 'UP TO' and a gold circle containing '60 MONTHS'. Below this is a dark green shield-shaped box with the text 'ZERO INTEREST FINANCING!' in white.

Happy Fall!

BILL AND MICHAEL HENDERSON

WE'RE READY TO SERVE YOU

LET US HELP YOU GET READY FOR THE WINTER WITH A TUNE UP OR NEW HEATING INSTALLATION

ASK THE EXPERT

DAN MCCARTHY | PLUMBING MANAGER

WHAT DOES THE U-SHAPED PIPE UNDER A SINK DO?

The U-shaped bend in your drain pipe is called the p-trap and it serves the function of capturing a small amount of water inside your drainpipe after the sink is used. This plug prevents sewer gases from coming up the wastewater line and out of the sink. It also can trap small objects that fall down the sink, such as jewelry, making it easier to extract them.

If a sink doesn't see frequent use, the water in the p-trap will evaporate and sewer odors will begin to escape from the drain. If you detect foul odors from around a sink, try running water through it to fill up the p-trap.

All Of Our Trucks Are Fully Stocked To Ensure We Get Your Job Done Promptly!
- Tony Falcone, HVAC Technician

THE IMPORTANCE OF A HEATING MAINTENANCE PLAN

A routine maintenance plan is the best way to keep your system in the best working condition possible. Like changing the oil in your car, your heating system will run better with a yearly check up. Having your system tuned-up on an annual basis ensures that it functions at peak performance and efficiency levels and extends the life of your unit.

The Mitsubishi Electric Ductless Mini Split allows you to control the temperature of each room separately. Now everyone can be comfortable!

\$250 OFF

MITSUBISHI ELECTRIC DUCTLESS MINI SPLIT INSTALLED

With this coupon. Not valid with other offers or prior services. Must be presented at time of service. Excludes trip charges and preventive maintenance. Offer expires 11/30/2018

AND UNDERGROUND SERVICES FOR:

COMMERCIAL

Why not let our Commercial HVAC and Plumbing Technicians take care of a new system installation or the maintenance on your business property?

Your clients, customers and tenants count on you to keep them comfortable throughout the day, and any disruption to the performance of your commercial heating, cooling and plumbing systems can reflect poorly on your business. Contact us today to learn more.
